Re: Avery Landing

Dear Mike:

I have enclosed CMC's letter to the Department and the Department's response to that letter per your request. In our recent telephone conversation you asked if there was anything Potlatch could do to help the Department. It would be helpful if Potlatch could provide us with any documents or other information regarding the storage tanks and/or fueling area. In particular, I would appreciate any documents or information which relate to the condition of the area when Potlatch purchased the property and any records which indicate leaks or spillage by the railroad.

I also would appreciate it if you could clarify whether the roundhouse/storage facility was located on property that Potlatch now owns. The map you sent me does not identify the location of that facility.

Thank you for your cooperation.

Yours very truly,

Douglas M. Conde  
Deputy Attorney General
